## **MSU-Northern Honors Veterans - Nov 2**

MSU-Northern will honor our veterans at the home football game on November 2 by allowing all veterans, active duty personnel, National Guard and reservists to come to the game free of charge. During halftime, there will be a short ceremony honoring veterans, active duty service personnel (including members of the National Guard and Reserve), and their dependents.

MSUN's Athletic Director, Christian Oberquell, commented, "We feel it is important to acknowledge and thank the men and women who have made it possible for us to enjoy our freedoms. A free ticket to the football game before Veteran's Day seems like the least we can do. We want community members to come out and show their support for our armed forces and enjoy a great football game."

The Veterans Coordinator at MSU-Northern, Fredrick Everingham explained, "Northern will be joining hundreds of colleges and universities from across the nation that are honoring veterans during their last home football game before Veterans Day."

The football game on November 2 is an evening game that starts at 6:30 p.m.

## Historian Dan Thyer - Nov. 7

Sponsored by Humanities Montana, the 2013-2014 MSU-Northern Chancellor's Lecture Series presents historian and storyteller, Dan Thyer, on Thursday, November 7, at 7:30 p.m. in the Applied Technology Center, Hensler Auditorium, on the MSU-Northern campus. The Sundance Kid in Montana is one of the greatest stories of the American West, and Thyer brings to life and dispels many of the myths of the illusive outlaw gang that operated in Montana, Wyoming, and Utah. The story follows the timeline of the early history of the American West brought to life through the use of object-based interpretation, descriptive storytelling, and the window dressing of living-history interpretation. The campus community and general public are invited to attend the lecture. Admission is free. All are welcome.

The MSU-N Lecture Series Committee is a Chancellor Charter Committee whose members consist of students, faculty, and staff. The mission of the committee is presented below:

To stimulate thought, discussion, and engagement, the MSU-Northern Chancellor's Lecture Committee presents an intellectually and culturally diverse program that brings the broader MSU-Northern communities face-to-face with notable thinkers, scholars, civic leaders, authors, and artists throughout each academic year.

## @ Your Library

By Vicki Gist

Are you planning to do some research, perhaps a literature review? The Vande Bogart Library has a new database called the "Web of Knowledge" that you could find useful. This database includes many research oriented citation indexes. Included are the Science Citation Index, Social Sciences Citation Index, Arts and Humanities Citation Index, Current Chemical Reactions, Index Chemicus, BIOSIS Citation Index, Derwent Innovation Index, Data Citation Index, and Zoological Record. When searching the Web of Knowledge you can retrieve citations on your research topic. Use the "360Link" button to check for available full text articles. Non full-text articles can be easily requested through ILLiad (Interlibrary Loan).

Some of the unique and useful features of this research database include an abstract for your selected article, a list of cited references used by the author of your article, and information on how many times each of the cited reference articles have been cited in articles by other authors. The database also lets you know who has used your selected article when writing their article. All in all, the database offers an easy way to find out who is doing research in a given field, and who is using whose research. Another feature is the citation report. This report quickly tells you how many items were published and cited in a given 20-year time span on your research topic. This report can be sorted in several useful ways. The Web of Knowledge can be found on the <http://www.msun.edu/infotech/library/DbDescript.htm> page.

### Reducing Test Anxiety

Having test anxiety is like not having the password to your computer. The information is there, you just can't get to it (from Study Skills InfoGuide available at the Learning Success Center).

One tip to reduce test anxiety is to start studying early. Utilize a variety of studying techniques. For example, if you are a kinesthetic learner, try teaching yourself by explaining the material to yourself in front of a mirror. Many actors and actresses have learned their lines by repeating them in front of a mirror. It works!! More on anxiety next week!!

### Buy a Shirt. Save a Life.

I recently stumbled upon a new kind of charitable organization that uses graphic t-shirts to raise money for various causes. Dale Partridge and Aaron Chavez founded the company, called Sevenly, in 2011. The men's motto is "People matter;" so based on a platform of love and generosity, they started their site where instead of plainly asking for people's money, they appeal to our social influence by offering t-shirts for purchase. Every t-shirt purchase allows \$7 to be used for the charity of the week.

This week (for three more days) the money Sevenly raises will provide food for children in the war torn areas of Syria. Check out the website at: [www.sevenly.org](http://www.sevenly.org). Even if you are not one to wear graphic tees, consider buying a shirt for someone who does (since Christmas is right around the corner), or you can check out their accessories including necklaces, prints from past campaigns, pillow covers, cards, and backpacks.

Check in with Sevenly from week-to-week to see if there is a cause you'd like to support.
